

# Bank Street Park

Shaping a new waterfront park at Bank Street

**The NSW Government invites you to help shape Bank Street Park by sharing your priorities for the future of this special place.**

The new one-hectare park will surround the southern pylons of the Anzac Bridge. The site provides a rare chance to create a new waterfront park that will celebrate its First Nations history, iconic harbourside location and maritime history.

Feedback received during this consultation process, together with feedback from previous consultations, will help inform a design brief for Bank Street Park to ensure that it reflects long-term community needs and aspirations.

# Get involved in shaping a new waterfront park for Bank Street

## Complete our online survey

### Visit one of our street pop-ups
